SUMMARY

Full Stack Developer with 5+ years of experience, specialized in React, React Native and TypeScript. I build production mobile apps for iOS, Android and dedicated tablets, with offline mode, Bluetooth LE (FTMS) and ANT+ sensors through native Kotlin modules, and in-app subscriptions. Backend experience with Node.js, Express, NestJS and Django, and AI-assisted development with Cursor, Claude, Codex and MCP.

EXPERIENCE

React Native Developer – Mad Dogg Athletics – Spinning® | 2024 – Present

- Develop Spinning Studio Connect, Pilates Project and Pilates Project Studio, apps for kiosk-mode Android tablets on fitness equipment, and the Spinning® member apps for iOS and Android.
- Built the offline mode of the studio apps: local SQLite catalog with sync, offline class playback and deferred session upload with HMAC-signed requests.
- Developed native Kotlin modules for Bluetooth LE (FTMS) and ANT+ sensors: power, cadence and heart rate, FTP power tests and a sensor simulator.
- Develop features for real-time in-person classes, with QR check-in and live ranking, and in-app subscriptions.
- Improved API-layer reliability with retries and token refresh, Sentry monitoring, Jest tests and compliance with Google Play's 16 KB page size.
- Manage iOS and Android builds and releases to the App Store and Google Play.

React Developer – Pharol | 2023 – 2025

- Developed a pharmacy e-commerce platform with React.

Node.js & React Developer – Julasoft | 2022 – Present

- Developed Node.js and React projects for multiple clients, including Karun (maps and traceability) and AlertaTel.
- Built a Node.js backend microservice for AlertaTel, deployed to production on AWS.
- Built the frontend of a parking enforcement platform with computer-vision license plate recognition (Django).

SKILLS

Mobile: React Native, Kotlin, Android SDK, iOS, Xcode, Bluetooth LE, FTMS, ANT+, Firebase, In-App Purchases
Frontend: React, Next.js, TypeScript, JavaScript, Redux Toolkit, TanStack Query, React Hook Form, i18next, Tailwind, MUI, SCSS
Backend: Node.js, Express, NestJS, Python, Django, REST APIs, authentication
Data / DevOps: SQLite, SQL, MongoDB, Docker, AWS
Testing: Jest, Vitest
Tools: Git, GitHub, GitLab, Sentry, Android Studio, Flipper, Chrome DevTools
AI: Cursor, Claude, Codex, OpenCode, MCP, Specification-Driven Development

EDUCATION

Coder House: Backend Node.js / Express, React Native, Cybersecurity (2022); React JS, JavaScript, Web Development (2021)
Udemy: TypeScript (2021)
freeCodeCamp: Responsive Web Design (2020)

LANGUAGES

Spanish: native · English: intermediate (B1-B2)

PREVIOUS EXPERIENCE

About 10 years in audiovisual production: camera, editing and post-production (Premiere, After Effects, DaVinci Resolve).
